There are several callers who come to the San Antonio area to call Advanced for us. These are full-time Callers that are leaders in the field of square dance choreography. By having the knowledge of Advanced dancing, an entire new world opens up for opportunities to dance, travel, and explore throughout the US and abroad.

INSTRUCTOR-

The course will review the Plus moves and how they apply to the Advanced program. There will be special handouts that will help guide you through the programs and give you quick and easy reference to the definitions... in English... not technical jargon.
